

Edmonton Bulletin.

VOL. XX. NO. 92.

EDMONTON, ALBERTA, THURSDAY, SEPTEMBER 15TH, 1898.

SEMI-WEEKLY, 4 PAGES.

TELEGRAPHIC.

Winnipeg, Sept. 15.
Canada has a surplus of \$1,575,861.
Hog cholera is prevalent in Ottawa district.

An alliance between Japan and China is rumored.

Marchand's expedition has arrived at Falson.

Falcon Island, in the Pacific, has disappeared.

Ontario and Quebec grain standards have been raised.

The Methodist conference advocates church union.

Admiral Dewey considers the situation at Manila critical.

The Spanish chamber of deputies adopted the peace protocol.

The Dreyfus scandal threatens to cause a French ministerial crisis.

A nugget of gold valued at \$32,000 was found in West Australia.

Joe, a Winnipeg dog, won the field trials championship of America.

Eleven bodies recovered from the burnt ruins of Jerome, Arizona.

Porto Rican evacuation negotiations are proceeding satisfactorily.

The world's available wheat supply has decreased 1,215,000 bushels.

The British Columbia agent-general at London has been dismissed.

The Duke of Connaught met with an accident while riding at Paris.

Hammond, the murderer, was hanged at 8:05 to-day at Bracebridge, Ont.

Italy has severed diplomatic relations with Columbia, South America.

A redistribution bill was read a second time in the Northwest legislature.

A awful suffering on the Ashcroft trail is reported by a party of Manitobans.

Hon. W. Mulock was tendered a reception by the Toronto board of trade.

The Cuban insurgent leaders are issuing manifesto urging moderation and union.

Fred C. Wade in a press interview denounces the charges against himself in the Yukon.

British exports to Canada increased 11 per cent during August and imports 10 per cent.

It is probable that three thousand Russian immigrants will settle in the west this fall.

The Southeastern railway will pass south of the Lake of the Woods through Minnesota.

Canadian pulp and paper makers urge an export duty on pulp going to the United States.

Poultry fattening stations are to be established at Winnipeg, Ottawa and Quebec.

J. R. Sheppard has been arrested on suspicion of setting fire to New Westminster.

The murderer of the Empress Elizabeth of Austria, at Luchine, well known in London.

T. A. Greenway, son of Premier Greenway, died of typhoid fever at Crystal City, Manitoba.

Hon. Joseph Chamberlain denies certain statements attributed to him by New York newspapers.

The Winnipeg vacant lands committee have prepared a list of 300,000 acres of available land.

Over 74,000 acres of land have been homesteaded and purchased in the Swan river district of Manitoba.

G. E. Arding, of Stratford, and G. F. Monck, of Hamilton, are appointed junior county court judges.

The Emperor of China has decreed the establishment of a national university and freedom of the press.

The Methodist conference has declined the proposed amendment to the discipline permitting dancing, etc.

Anti-Liberal demonstrations have occurred in Austria on account of the murder of the Empress Elizabeth.

Admiral Noel demanded the surrender of the forts commanding Candia and the dismemberment of the Turkish troops. Turkey refuses to withdraw her troops from Crete.

Toronto voted \$1,000, Hamilton \$800, Winnipeg \$500, Ontario government \$2,500, Northwest legislature \$1,000, and Roman, B.C., subscribed \$3,500 for New Westminster fire sufferers.

The election petition against Charles Calder, conservative, South Ontario, has been decided. The seat is now vacant. John Dryden will run. The petition against the election of W. H. Hoyle, conservative, in North Ontario, is dropped.

LOCAL.

A LOAD of last season's oats was sold on Tuesday at 20c a bushel.

Mrs. J. L. Johnson and Mrs. W. H. Newlands left for Banff this morning.

W. H. NEWLANDS, inspector of registry offices, left for Calgary on Tuesday's train.

The Calgary Herald says that Dr. Macdonald of that place is returning to Calgary from Lawson.

The season for partridge and prairie chicken shooting commences to-day, and lasts until the 16th December.

Messrs. W. S. Edmonton, St. George Jellett, E. C. Emery and G. R. F. Kirkpatrick are at the Big Bay lakes, on a camping and shooting trip.

One hundred and fifty letters reached the Edmonton post office on Monday from Peace river by way of Athabasca Landing, brought to the Landing by Hudson's Bay transport, no doubt.

JOHN PATON, inspector for the London & Ontario Investment Co., of Toronto, arrived on Monday's train to look over the Edmonton district with a view of opening a branch of the company's business here.

I. S. G. VANWART, returning officer for Alberta, arrived from Calgary on Monday's train to distribute ballot boxes and arrange for the appointment of deputy returning officers at the different polling divisions.

Geo. CAMPBELL of Truro, Nova Scotia, came in Monday's train to look after his interests in the lands held by him in the vicinity of Edmonton through his connection with the Edmonton and Saskatchewan land company.

The consolidation of the Northwest ordinances will not be completed until after the present session of the assembly. The work of the present session will be embodied in the consolidation, which will become law by proclamation when completed.

H. ALDRIDGE of the H. B. stores returned last week from a visit to Banff.

RALPH BELLMY left on this morning's train for Toronto, where he will attend college.

An alliance between Japan and China is rumored.

Marchand's expedition has arrived at Falson.

Falcon Island, in the Pacific, has disappeared.

Ontario and Quebec grain standards have been raised.

The Methodist conference advocates church union.

Admiral Dewey considers the situation at Manila critical.

BULLETIN CO. (LTD.)

EDMONTON BULLETIN, SEPT. 15TH, 1898

THE PLEBISCITE.

The question upon which the electors are asked to vote is as follows:

Are you in favor of the passing of an act prohibiting the importation, manufacture or sale of spirits, wine, ale, beer, cider and all other alcoholic liquors for use as beverages?

Columns headed with the words "Yes" and "No" are ruled off at the right hand side of the ballot paper and the voter marks an X in which ever column expresses the answer he desires to give.

The persons qualified to vote are male British subjects, 21 years of age, not Indians, who have resided in the Northwest Territories for at least twelve months and in the electoral district for at least three months immediately preceding the issue of the writ of election, that is previous to August 5th, 1898.

Persons who were born the subjects of other powers must take out naturalization papers before they are allowed to vote. These papers are granted after three years residence in Canada, on application to the clerk of the court.

Persons who were born British subjects, but who have become naturalized citizens of another country are no longer British subjects, although they have returned to British Dominions, and must be naturalized before they are entitled to vote.

In the United States what are called intention papers are granted, which give the foreigner taking them out the right to vote there, but which do not make him a citizen. Having taken out these papers does not disqualify a born British subject who has returned to Canada from voting without naturalization. But if a British born person has taken out his final papers in the States (granted after five years residence) then he must not vote in Canada until he has become naturalized here.

It will be noticed that residence and not property is the main point in the qualification.

The enumerators' lists must be completed eight days before polling and two copies must be posted up publicly within the polling division. The enumerator may correct the voter's list at any time up to two days before polling day according to information received by him.

If the name of a person entitled to vote is not found on the voters' list on the day of polling, he may demand of the deputy returning officer that it be put on. The deputy returning officer must administer to such person the oath of qualification, and if he takes it must put his name on the list and accept his vote. This was not allowed at the last Dominion election in the Territories. If the voters' name was not on the list two days before polling he was not allowed to vote. This was changed at the session of '96.

RAT RIVER PORTAGE.

Frank Hardisty, of the Segers party, wrote to Mr. Frith, H. B. officer at Fort Macpherson, an account of the trip of that party from Macpherson to La Pierre's house by way of the Rat river. The party numbered six men and they hired five Indians, making eleven in all. They had a flat boat 31 feet long and 5½ feet wide. The river was high at the time of their passage. They left Macpherson on May 29th and reached La Pierre's house, on Bell river, on July 7th. He says that the route is passable for skiffs not more than 20 feet long, loaded with about 1,000 pounds, and with four men. Six such boats passed the Segers party on the way and were at La Pierre's house ten days before them. There are 102 rapids on Rat river. The worst are at the lower end, after leaving the slack water. They made a great many portages and made a channel for the boats in twelve places by removing boulders from the bed of the stream. The canoe was the best piece of the rapid portion of the stream. The party had no trouble there. After leaving the mouth of Trout river, (which puts into the Rat river) it gets very small, but plenty of water, and no current till the lake is reached. The party arrived at Bell lake on July 1st. Portaged the boat from one lake to Bell lake, about a mile. It took just four hours. After crossing Bell lake portaged into a small river that comes out of the mountains. This portage was about 350 yards long and took an hour. The creek leading out

of the lake was too small for the scow, though all the other parties took their boats down this small creek. In coming down this small stream into Bell river were the worst rapids on the trip. The rocks were sharp and plentiful. There are 21 rapids on this stream. From the junction with Bell river to La Pierre's house took a day and a half on a splendid river. Mr. Hardisty says: "I would come again the same way, but with a large canoe. Advise the people to travel by small boats or canoes."

FROM DAWSON.

Alex. Taylor, postmaster, is in receipt of the following letter from A. E. Lee, formerly in the employ of the local telephone company here, who went through from Edmonton to Dawson by the Liard river route. The letter is dated Dawson City, July 8th:

People are flocking here in tens of thousands, but from what I can see they pitch their tents, eat their grub and do nothing. Thousands have already left via St. Michaels, disgusted with the prospects, and no doubt thousands more will follow in their wake. There is no doubt also that great wealth lies hidden here, but extraordinary obstacles stand in the way of getting hold of it. For instance, bed rock is often buried under 30 or 40 feet of frozen dirt, and the surface seldom if ever shows any indication of the presence of gold. Mining operations are almost entirely suspended during the summer months; as during the winter shafts can be sunk without cribbing, and lumber is scarce. Last winter it was \$500 and \$600 per thousand. Then, too, the government restrictions are a serious impediment to the development of the country. It is a pitiful fact too, that the officials, from the gold commissioner down, cannot be put in motion without the aid of the gold sack. It would be a god send if the Edmonton staff were sent to take charge of the post office. Inspector Harper has an imposing appearance, but he makes a poor postmaster. The sorting of letters is four weeks in arrears, and in order to get a turn at the delivery box one has to be at the office hours before opening time, and then may be considered fortunate to be admitted before noon. However, by the skilful manipulation of a dollar, one can obtain the same privileges as the ladies (?) of the town, and obtain entrance at a side door, thus getting ahead of perhaps five or six hundred men.

I have been rather unfortunate since getting here. Got a contract cutting cordwood and made \$12 a day for a week. Then cut my foot losing one toe and part of the next. O'Brien had promised me some telephone work next day and I was rushing things to complete the contract. Now I am laid on my back for a few weeks and am rather disappointed. Electric light work has been commenced, so I am in the position of Tantalus devoured by thirst with ripe grapes and refreshing streams just beyond reach, but with the addition of Damocle's sword over my head in the shape of hospital fee mounting up to the tune of \$5.00 a day, besides doctor's bill. However, I am going to stay with it this winter if there is the remotest possibility of doing so. The worst of it is, I've got no grub on hand. The situation is to say the least of it, interesting.

A WACON ROAD TO ST. JOHN.

A letter from A. McFee, D. L. S., in charge of the party sent by the Northwest government to explore for a trail from St. John, on the Peace, to the Nelson, writes from St. John, Peace River, under date of Aug. 22nd. Mr. McFee left Edmonton on July 13th, taking horses and two carts. His supplies went by the Slave lake, water route. From his letter it will be seen that notwithstanding a week's delay by high water at the Athabasca, Mr. McFee reached St. John in 35 days from Edmonton. Taking out the week's delay the time was 28 days. Mr. McFee says:

I got here on the 16th inst., five days ahead of supplies. I had trouble at the Athabasca river on account of high water, where I was detained over a week. The road on the whole is better than I expected, particularly from Peace River Crossing to St. John. In a few days there will be over 100 carts and wagons through. About 20 were through when I got here, and we passed about 75 on the road within a few miles of St. John. For the first 150 miles from Peace River Crossing the road is as good as is found anywhere in the Territories. For about 50 miles on the St. John end it is rather rough. Mr. J. F. Finley, of Hamilton, Ontario, got in here with the first carts, a Mr. Todd got through next. Now they are arriving every day. From here they are taking pack horses, some towards Fort Graham, and some north to the Nelson river.

I leave for the Nelson to-morrow morning, Aug. 23rd.

UNTAXABLE LANDS.

In the Territorial legislature in reply to a question by Mr. Neff, Mr. Ross said that the Territorial government had brought the question of lands remaining untaxable by reason of certain unfulfilled duties on the part of the companies holding the lands, to the attention of the department of the interior, and had received assurance from the minister that steps would be taken looking to a remedy.

TERRITORIAL GAZETTE.

Robert Wynn, Kne Hill, near Innisfail, Alberta, justice of the peace.

A. G. Harrison, Edmonton, Frank Eckler, St. Albert, and W. R. Charley, Pine lake, commissioners for taking affidavits.

H. Y. Baldwin, M. D., Wetaskiwin, coroner.

Adam Styles, Olds, village overseer.

Pincher Creek is proclaimed a village. First election Saturday Sept. 3rd.

Bulls may run at large between July 1st in one year and March 31st in the following year in townships 51, 52, 53, range 17, west 5th.

gasoline launch.

The gasoline launch of the Koney Island company was placed on Cook lake about three weeks ago. It is an immense and unqualified success. The boat is 20x5 feet and carries twelve persons. It was built by the Truscott Boat Co., of St. Joseph Michigan. For the information of those who know nothing about gasoline engines it may not be out of place to mention the peculiar working of the gasoline engine. The gasoline is contained in a small tank in the front of the boat. The gasoline evaporates freely. The vapor is carried by a pipe in which there are two check valves to the engine in the stern of the boat. A battery in which electricity is generated by chemical action is a part of the apparatus. The gasoline vapor is conducted into the cylinder of the engine as steam would be, and is there exploded by a spark from the electric battery. This explosion causes an expansion of the vapor which has the same effect in driving the piston of the cylinder to the other end, and thereby giving effective power, as an equal pressure of steam. The vapor is then introduced into the other end of the cylinder and exploded as before driving the piston back and thus completing the revolution of the crank which works from the piston. Once the process is started the work is automatic as in an ordinary steam engine. There is no fire and no steam, therefore little noise, heat or danger. An ideal power system for a small pleasure boat.

Lemont.

ANGUS RIDGE.

Rev. Dean preached an able and impressive sermon in the school house last Sabbath afternoon. He preached at Zion in the morning. S. O'Brien, who is teaching near Lacombe, visited the Battle river school on Friday. We have been fortunate in escaping the frost so far.

Ed. Latimer, who was on the sick list last week, is regaining his usual health.

William Thirk, Blake, Ont., is the guest of his brother, Johnson Thirk.

Will Angus, who has been absent from school for a few days on account of illness, is in attendance now.

Labor day passed off quietly here. We fail to see the use of such a holiday, especially for the schools.

We had a pretty heavy rain on Wednesday.

Messrs. C. Nelles, McCrae, Abbott, Potvin and R. Angus have purchased binders this season.

Mrs. and Miss Vaughan left for a visit to Chicago on Saturday.

LACOMBE.

Rev. W. and Mrs. White, returned from their bridal tour on the 9th. They, while away, took in Banff, our celebrated resort for tourists. The prize list of the Lacombe fair, of Oct. 6th and 7th, is at hand from the Calgary Herald print. It reflects credit on the printers. The new building will be completed in time for the annual exhibition.

Potatoes are being shipped from here in large quantities at 40c. per bushel.

Geo. Hunt met with quite a serious accident, but is now improving quite rapidly.

Geo. Jamieson had one of his fingers badly crushed on Monday, the 6th.

Rev. German, of Hobbs, took the service in the Methodist church, on the 4th.

Mrs. Frost and family, of Banff, arrived on the 5th to visit their old home. Miss Bagley also arrived on the 5th, also Miss Nina Matthiass left on the 6th for the ladies college, St. Catharines, Ontario. Her mother accompanied her as far as Calgary.

Mrs. Gilmore and daughter, of Olds, are here

visiting friends.

Miss Trimble, of Springdale, has returned home. Our agricultural implement men have been doing a good business this summer. Morris & Taylor, agents for the McCormick machines, have sold 5 reapers, 18 mowers and 14 rakes. D. C. Gourley, agent for the Massey-Harris Co., has sold 5 reapers, 26 mowers, 18 rakes and 14 Bain double wagons. Mr. Lockhart invested in a new threshing machine which arrived on the 7th. The prohibition league are giving temperance concerts and in different ways doing much good for the temperance cause.

Master Charlie Matthiass gave a very pleasant little party last week to his school friends.

Sept. 12, '98.

A SERIOUS CASE.

Too Difficult and Complicated for Ordinary Medical Aid.

Paine's Celery Compound is the Mighty Rescuer.

Mr. Forsythe says: "I am pleased to recommend Paine's Celery Compound; I believe it is the best medicine in the world."

WELLS & RICHARDSON CO.

Gentlemen:—For two years I was in a low condition of health, suffering from nervousness, fainting spells, pain in the head, stomach trouble and loss of appetite. I was given the care of the doctor, but received no benefit from their treatment. I also used two bottles of a recommended patent medicine, but no good results came. I was then advised by a neighbor to use your wonderful medicine, Paine's Celery Compound. The use of this marvellous preparation soon produced the very best results. I am glad to report that my health is improved in every respect; I am stronger better, and my appetite is good and natural. I am pleased to recommend Paine's Celery Compound to all sick people, as I believe it is the best medicine in the world.

Yours truly,

A. FORSYTHE,
Manvers, Ont.,
